

Misc Projects

Computer and Electronics Technician

Worked on many computers ranging from complete DIY builds to component replacement and operating system revamps. Repaired phones, stereos, coffee makers, televisions, game systems, and more.

Small Engine Mechanic

Performed full engine rebuilds on lawnmowers, ATVs, dirt bikes, and boat engines. I was known around the neighborhood as a reliable source to help fix small engines.

HVAC, Water Heater, and Refrigeration Repair

Repaired several HVAC units, overhauled refrigerators, and have replaced water heater components to get the equipment back to full functionality.

Lawn Care Business

Ran a lawncare business during high school where I had a team of 3 that would help me mow and landscape around 10 yards weekly.

Home Construction

Worked two summers for a contractor on home renovations ranging from tile installation, Sheetrocking, cabinet making, and appliance installation.

Disaster Relief Work

Worked on home repairs including roof and floor repair for 6 homes after a hurricane hit South Texas.
